

# Lazy Pinwheel Bow

You will need 64" of ribbon. If you want to use 2 colors use 32"s of each colored ribbon.

Cut your ribbons into 8" lengths and one by one pick up your ribbons and pinch them together at center. If you are using 2 different kinds, alternate the colors.

Take a wire to secure them in the center.

Now just fan out and make your Pinwheel nice

and fluffy.

You can even add an embellishment in the center of your pinwheel! I've added a pre-made Monkey face by Offray in the center!
