

Princess Rose Bow

7/8" white ruffled satin ribbon 24" long or longer if you want a fuller rose.
Take 2 pieces of 1/5" dotted ribbon 6" long each.
A safety pin or needle and thread

Take your ruffled ribbon. Roll a nice tight piece of ribbon that will be your rose bud. Fold over like 3" of ribbon.

As you are rolling your rose twist your ribbon a little that will make it look more like rose petals. Keep on doing it until done. Stick a safety pin through the bottom layers of the rose to hold it together.

Take 2 pieces of 1/5" dotted ribbon 6" long each, cut both ends of the ribbons on an angle, one black and white and one white and black. Take your rose and glue it to the center or wire it. All ready to add to your clippie!

NOTE: the Princess Rose Bow is the black and white ribbons dotted* that you see on top of the paris rose bow with the ruffled rose in the center!
