

## My Puppy Brownie

Now, Brownie is done in my "Tri fold face" I want you to learn the various faces that I create because once you learn how to make them well you can create many of your very own animal/charecter faces!

### Materials Needed

Hot melt glue

Black or brown pom pom for the nose

these can be found at craft store or your local Walmart so don't panic.

Wire

1" brown Grosgrain ribbon, 3 pieces cut in 5" pieces for the face, 1 piece cut in 9" for the ears.

3/8" pink grosgrain ribbon or ribbon of your choice for on top of her head.

3/8" pink grosgrain ribbon cut in 1" piece, cut out in the shape of a tongue. Remember to fray check the tongue and edges of your ears so they don't come apart!

Take your 3 piece of grosgrain ribbon for the face and one at a time fold over your ribbon and make a simple bow tie and secure the center well by wrapping your wire around it. Do that two more times with the other pieces of ribbon.

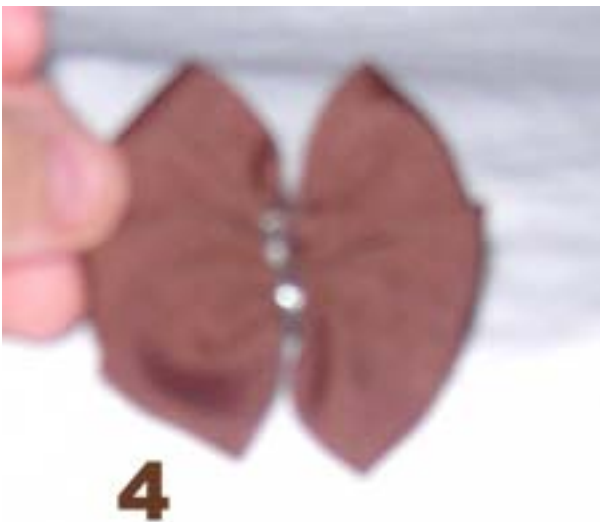

Take your three ribbon bow ties and connect one to another one at a time, you will be attaching them next to each other. See the photo below, you are attaching two.

Now attach the third one, for your Tri Fold Face.

Take your piece of grosgrain that you cut for the ears, cut and round off each end of your ribbon for the ears and fray check, take that piece of

ribbon and I want you to just pull it through the two top loops of your poodles face now until the ribbon comes out the other end. See picture #3 how his ears are flopping out on either side? :)

**7**

Glue your nose on first this will help you easily to see where to put the eyes, then glue on your eyes. Take her tongue and slip it in between the bottom of the X on her face and glue it.

Add your bow on top of her head.
