

## Beaded Barrette

### Materials Needed

Clear plastic string or wire

French Clip

Beaded of your choice

Prepare your beads and barrettes. String your beads on your clear string in the exact designs that you want them to be in and tie your string together and knot a couple of times, cut off the excess.. Pop out the bar that is in the back of your french clip.

Place your string of beads on top of the top\* of your barrette.

Take your string or wire and wrap around your string of beads and your barrette, keep on going until your barrette is nice and secure, cut off your excess string or wire.

There you have it! You can make these are simple or elaborate as you want to. Think of what you can do with all of those cool Polymer Clay beads or Fimo beads in cute shapes like candy, doggies and kitties!
