

Petunia Piggie!

Materials Needed

7/8" pink grosgrain ribbon cut in 3, 5" pieces

Wire

Pink pom pom nose.

Googley eyes 1 pair plus and extra pair of tiny googley eyes

Ribbon in the color of your choice for the top of her head

Hot Melt glue

3/8" pink ribbon is needed for the ears

Prepare your 3 ribbons like you would your basic plain bow tie, fold over your ribbon and leave a atleast a 1/4" over hang, clinch in the center and wire it well. Do this 2 more times until you have all 3 bows done.

Take two bows and form an X glue one on top of eachother, glue the 3rd bow underneath Petunia's face.

Take your pink pom pom nose and flatten it, you can do this by carefully and slowly pulling the fibers outward and smooshing the pom pom so that she can have a piggie snout nose. Glue on her larger eyes.

Take your two tiny googly eyes and cut them open, or crack them open to release the black plastic disc's. Glue them onto Petunia's nose so she can have her piggie snout. This also works well as a different kind of nose for some of your character bows, I use them in my Leopard bow most of the time.

Take 3/8" of ribbon, cut two pieces 1" long each, fold over loosely in a v shape for her ears so that they still over lap see photo #4. Before you glue her ears on I want you to cut 2 more pieces of 3/8" ribbon and glue them on first so that the top of the ribbon curls a little, like a korker ribbon curl for curlie piggie ears, then glue on the ears that you made.

Make Petunia a tongue that you cut out of your ribbon and glue it on under her snout and add her bow on top of her head.
