

Victoria Bow

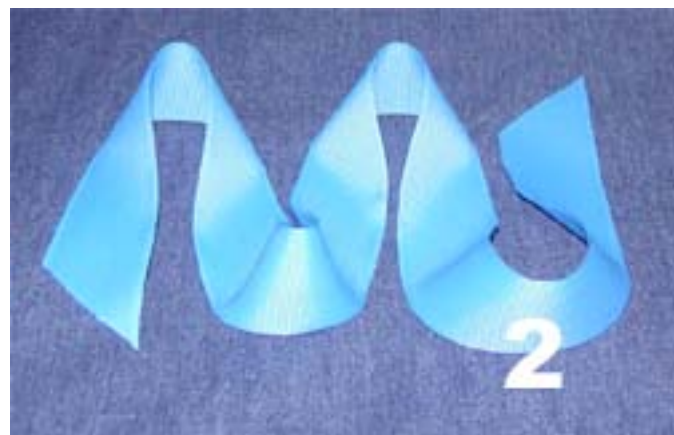

Measure and cut 33" of 2.5" ribbon

7" of 1.5" or 2.5" ribbon, whichever you prefer

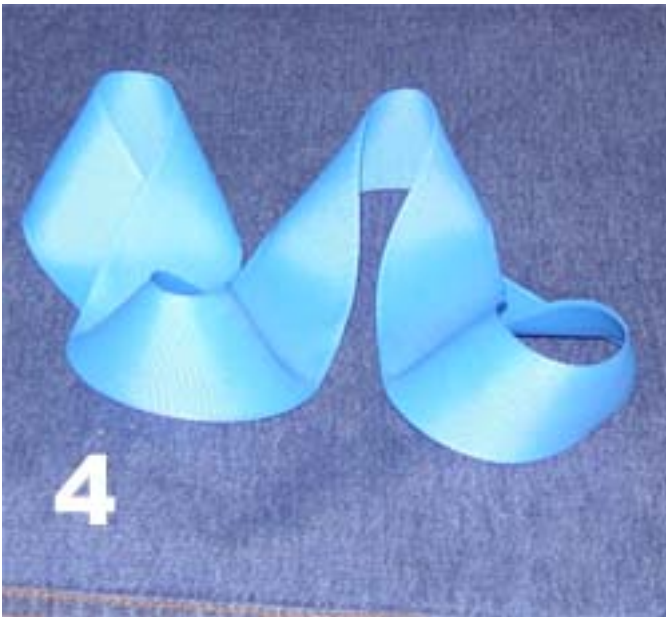

Please note that these pictures were numbered incorrectly, there are no pictures missing. Sorry about this. Please follow the instructions in the order in which they were placed.

Fold your 33" ribbon in half cut them on an angle

Lay your ribbon down flat in a snake pattern like so. So that your ribbons are going in opposite directions.

Tuck the tails of your ribbons that you cut on an angle underneath your ribbons

Take your smaller piece of ribbon and make a knot, cut your ends on an angle, take a piece of wire and wire it through the back of your knot, leave wire hanging over you will need this to secure it to your bow

From right to left begin pleating your ribbon and picking it up until done, make sure that the corners of your ribbon that you cut on an angle are secured well in your pleats or it will come un done

Wrap a piece of wire around the center a few times to secure it

Wire your knot on top of your bow
